TO WHOM IT MAY CONCERN

This letter service to confirm that Probrands invested in a Tetra Pak TBA8 second hand filling line, cap applicator and card board stream from UGM. They organised and managed the international transportation of the equipment, the turn-key service, additionally ordered production support and operator's assistance as well as training. The plant has now been operating for 3 months.

We are happy with the services rendered by UGM and are happy to recommend them. Feel free to contact the undersigned should you have any questions.

Yours faithfully,

Calum Philp
MANAGING DIRECTOR
